

## Zensus-Ankündigungsschreiben Kurzübersetzung

### **Notation Census 2011** (*Englisch*)

A census (Census 2011) will be carried out in Germany in 2011. In the process up to 10% of the households throughout Germany will be interviewed regarding certain features. Selection is made by means of a mathematical random process. Your household has also been selected in this connection. An authorised person for the execution of the census (person authorised with the census) will call on you in the next few days and carry out the interview. The persons authorised with the census are sworn to secrecy and are naturally able to provide proof of identity. As a matter of principle it is your duty to give information within the bounds of the interview. Further information regarding the interview can be found in several languages on the Internet page [www.zensus.it.nrw.de/international](http://www.zensus.it.nrw.de/international).
